Hood College Wellness Center  
(301) 696-3439  
The Wellness Center is open Aug. 1 - May 31 while classes are in session. If you have questions during the summer, you may call (301) 696-3575 to reach the Student Activities Office for assistance.

Important Information About Required Medical Forms and Immunizations

■ All attached forms must be completed and returned in the enclosed envelope by July 15 for fall enrollment or Jan. 1 for spring enrollment.

■ Registration for classes in subsequent semesters cannot be completed until your health forms are on file at the Wellness Center.

■ Please keep a copy of all completed forms for your records.

Forms to Complete

1. REPORT OF MEDICAL HISTORY: Fill out personal and family history yourself.

2. REPORT OF MEDICAL EXAM: Have your physician fill out the Report of Medical Exam form. This form must be complete and on file at the Wellness Center before you can be eligible for Wellness Center services.

3. IMMUNIZATION RECORD: Required for all students and must be on file prior to arrival on campus. 
   Your family physician should have these records.
   a) If you are a recent high school graduate, you may find your immunizations record at your high school.
   b) Your doctor may order a blood test for a Rubella and Rubeola titer to see if you are immune to these diseases.
   d) Maryland law requires all residential students have the meningococcal vaccine or sign a waiver declining the vaccination.

4. EMERGENCY CONTACT AND RELEASE FORM: Required for any emergency treatment to be initiated and allows us to contact the person you designate in an emergency. You may sign the form yourself if you are 18 or older. If you are under 18, your parent or guardian must sign.

Athletes:

Athletes will need to complete additional health related information and forms per NCAA requirements. Athletes will be receiving a Pre-Participation packet through the e-mail from their coaches in early June that contains athlete-specific information and forms to complete. This packet will also be available at www.hoodathletics.com/athletics-about/sports-medicine/pre-participation-forms. For questions about the Pre-Participation Packet, contact Akira Kondo, head athletic trainer, at kondo@hood.edu or (301) 696-3836.
Meningococcal Disease And Vaccine Information

What You Need to Know

Maryland law requires that students enrolled in an institution of higher education in Maryland who reside in on-campus student housing must be vaccinated against meningococcal disease. An individual may be exempt from this requirement if:

1) the institution of higher education provides the student, or the student's parent or guardian if the individual is a minor (under 18 years of age), detailed information on the risks associated with meningococcal disease and the availability and effectiveness of any vaccine, and

2) the individual or a minor student's parent or guardian signs a waiver stating that the individual or the parent or guardian has received and reviewed the information provided and has chosen that the student will not be vaccinated against meningococcal disease.

What is Meningococcal Disease?

Meningococcal disease is a rare but life-threatening illness, caused by the bacterium Neisseria meningitidis. It is a leading cause of bacterial meningitis (an infection of the brain and spinal cord coverings) in the United States. The most severe form of the disease is meningococcemia, an infection of the bloodstream by this bacterium.

Deaths from meningococcal disease have occurred among Maryland college students in recent years. Students living in dormitories or residence halls are at increased risk. The Maryland Department of Health and Mental Hygiene encourages meningococcal vaccination of higher education students.

About 2,600 people get meningococcal disease each year in the United States. Ten to 15 percent of these people die in spite of treatment with antibiotics. Of those who live, 10 percent lose their arms or legs, become deaf, have problems with their nervous systems, become mentally retarded or suffer seizures or strokes.

About the Vaccine

Meningococcal vaccine can be effective in preventing four types of meningococcal disease. The vaccine is not effective in preventing all types of the disease, but it does help to protect many people who might become sick if they don't get the vaccine. Drugs such as penicillin can be used to treat meningococcal infection. Still, about one out of every 10 people who get the disease dies from it, and many others are affected for life.

A vaccine, like any medicine, is capable of causing serious problems, such as a severe allergic reaction. People should not get meningococcal vaccine if they have ever had a serious allergic reaction to a previous dose of meningococcal vaccine. Some people who get meningococcal vaccine have mild side effects, such as redness or pain where the shot was given (which is usually under the skin of the upper arm). A small percentage of people who receive the vaccine develop a fever.
This Form is to be Completed and Signed by the Student

The information reported on this form is strictly for the use of the Health Center and the Athletic Department and will not be released to anyone without your knowledge and consent. This information will be used, if necessary, solely as an aid to provide necessary health care while you are a student at Hood.

Personal History — Please answer all questions. Comment on all positive answers in space below or on additional sheet.

1. Have you ever had any surgeries?  □ Yes □ No  If yes, please list: ________________________________
2. Have you ever stayed overnight in the hospital for any reason?  □ Yes □ No  If yes, reason: ________________________________
3. Has your physical activity been restricted during the past five years? (Give reasons and duration) ______________________________________
4. Are you taking medication(s) on a regular basis?  □ Yes □ No  If Yes, please note medication(s) and dosage(s): ________________________________
5. Have you ever been concerned with or received treatment for depression, anxiety, eating disorder or other emotional problems?  □ Yes □ No  If Yes, give details: ________________________________
6. Are you allergic to any drugs, serums, foods or other substances?  □ Yes □ No  If yes, please list: ________________________________
7. Are there any other reasons for which you have seen your doctor repeatedly?  □ Yes □ No  Please list:
   □ Yes □ No  If Yes, give details: ________________________________
8. Have you ever passed out during exercise or become dizzy during exercise?  □ Yes □ No
9. Have you ever experienced chest pain during exercise?  □ Yes □ No
10. Have you ever had a concussion or neck injury?  □ Yes □ No
11. Have you ever broken a bone or had to wear a cast and/or had any injury to any joint?  □ Yes □ No
12. Have you ever suffered a heat related illness?  □ Yes □ No
13. Have you ever had convulsions (seizures) or epilepsy?  □ Yes □ No
14. Have you ever been unconscious?  □ Yes □ No
15. Do you have asthma or wheeze or cough after exercise?  □ Yes □ No
16. Do you wear contacts or eye glasses?  □ Yes □ No
17. Do you wear dental bridges, plates or braces? Do you wear orthotics, protective braces or supports while playing sports?  □ Yes □ No
18. Do you have only one of any paired organ? (Eye, ear, kidney, lungs, etc.)  □ Yes □ No  If yes, please list: ________________________________
19. Have you ever used any substances to enhance your performance?  □ Yes □ No  If yes, please list: ________________________________
20. Have you been tested for sickle cell trait?  □ Yes □ No  If yes, □ Positive □ Negative
21. (Women Only) Have you ever experienced amenorrhea (absence of regular periods) while engaged in strenuous exercise?  □ Yes □ No

Please check the sport(s) you intend to play:

Collision Sports: □ men’s lacrosse
Contact Sports: □ basketball □ softball □ soccer □ field hockey □ volleyball □ women’s lacrosse
Non Contact Sports: □ tennis □ cross-country □ golf □ swimming □ track and field

Is there loss or seriously impaired function of any paired organ?  Yes  No  Explain:

Do you have any recommendations regarding the care of this student?  Yes  No (If yes, please explain on a separate sheet.)

Is the patient now under treatment for any medical or emotional condition?  Yes  No

Recommendation for physical activity (Physical Education, Intercollegiate and Intramural):  Unlimited  Limited, Explain:

Cleared after completing evaluation/rehabilitation for:

Not Cleared for: Collision Sports:  men’s lacrosse

Contact Sports:  basketball  softball  soccer  field hockey  volleyball  women’s lacrosse

Noncontact Sports:  tennis  cross-country  golf  swimming  track and field

If a student is participating in a sport, please send a release form if the student has had orthopedic surgery within one year.

This Form is to be Completed and Signed by a Health Care Provider

Proof of immunity is required prior to registration. Any contraindications to immunizations must be documented.

Status:  □ Undergraduate  □ Graduate  □ Full-time  □ Part-time

A. M.M.R. (Measles, Mumps, Rubella) (Two doses required)
1. Dose No. 1 given at age 12-15 months or later
   No. 1 __________/__________
   Month Year

2. Dose No. 2 given at age 4-6 years or later, and at least one month after first dose
   No. 2 __________/__________
   Month Year

B. TETANUS-DIPHTHERIA
   Tetanus-Diphtheria (Td) booster within the last 10 years
   __________/__________
   Month Year

C. POLIO: Check One
   Primary series of immunization completed with:
   ______ oral vaccine  ______ inactivated  ______ E-IPV
   Last booster date __________/__________/__________
   Month Day Year

D. MENINGOCOCCAL TETRAVALENT (A, C, Y, W-135) (Maryland requires all residential students receive the meningococcal vaccine or sign a waiver below to the vaccination.)
   Tetravalent conjugate (preferred; data for revaccination pending):  Date __________/__________
   Month Year

   Tetravalent polysaccharide (acceptable alternative if conjugate is not available; revaccinate every 3-5 years if increased risk continues):  Date __________/__________/__________
   Month Year Month Year

   WAIVER:
   I decline the meningococcal vaccine at this time. ____________________________ Date __________/__________
   Month Year

E. TUBERCULOSIS SCREENING
1. Does the student have signs or symptoms of active tuberculosis disease?  □ Yes  □ No
   (If No, proceed to No. 2. If Yes, proceed with additional evaluation to exclude active tuberculosis disease including tuberculin skin testing, chest x-ray and sputum evaluation as indicated.)

2. Is the student a member of a high-risk* group or is the student entering the health professions?  □ Yes  □ No

3. Tuberculin Skin Test:
   Date Given: __________/__________/__________  Date Read: __________/__________/__________
   Month Day Year Month Day Year
   Result: ______ (Record actual mm of induration, transverse diameter; if no duration, write “0”)
   Interpretation (based on mm of induration as well as risk factors):  Positive ______  Negative ______

4. Chest X-ray (required if tuberculin skin test is positive)  Result:  Normal _____  Abnormal _____
   Date of Chest X-ray __________/__________/__________
   Month Day Year

*Categories of high-risk students include those students who have arrived within the past five years from countries where TB is endemic. It is easier to identify countries of low rather than high TB prevalence. Therefore, students should undergo TB screening if they have arrived from countries EXCEPT those on the following list: Canada, Jamaica, Saint Kitts and Nevis, Saint Lucia, U.S.A., U.S. Virgin Islands, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Liechtenstein, Luxembourg, Malta, Monaco, Netherlands, Norway, San Marino, Sweden, Switzerland, United Kingdom, American Samoa, Austria or New Zealand.
RECOMMENDED BUT NOT REQUIRED IMMUNIZATIONS

A. VARICELLA
1. History of Disease  □ Yes  □ No
2. Immunization:
   a. Dose No. 1  No. 1 ___/______
      Month Year
   b. Dose No. 2, given at least one month
      after first dose, if age 13 years or older  No. 2 ___/______
      Month Year

B. HEPATITIS B
1. Immunization
   a. Dose No. 1 ___/______  b. Dose No. 2 ___/______  c. Dose No. 3 ___/______
      Month Year Month Year Month Year

■ People to be notified in case of emergency
In case of emergency, especially in the event that the student is unable to give permission for medical or psychological treatment, it may be necessary to have a release from parents, a spouse or another person who can legally authorize treatment. The College reserves the right to utilize emergency contact information without restriction when deemed necessary. Students are strongly encouraged to list a parent/guardian or spouse as their primary emergency contact.
