

Biology & STEM Experience Day
Wednesday, October 8, 2025

- 9:30 AM Arrival to campus
Hodson Science & Technology Center
521 Hodson Dr., Frederick, MD 21701
- 9:45 AM Welcome and introduction of faculty
Hodson Science & Technology Center, Room 131
- 10:00 AM Biology program overview and current student panel
Hodson Science & Technology Center, Room 308G
- 11:30 PM ET Attend a biology class (see next page for options)
- 12:30 PM ET Lunch with students, faculty and staff
Coblentz Dining Hall
- Optional, beginning at 1:00 PM:
Campus Tours
Individual meeting with an admission counselor
Meet with a financial aid officer

Please call 301-696-3400 if you need any assistance during your visit to campus.

Biology & STEM Experience Day

Class Options - 11:30am to 12:55pm

BIOL 113: Newsstand Biology

Room 131

Fundamental biological concepts will be studied in readings and discussions taken from current, “popular” scientific literature. The course will convey ways in which biology touches our lives as well as the excitement of scientific discovery.

BIOL 339: Cell Biology

Room 210

The study of cellular structure and function. Cellular organelles' contribution to the life of the cell are examined. Differentiated and specialized cells are used to illustrate genetic and molecular mechanisms.
