

TAP INTO A GLOBAL NETWORK OF OPPORTUNITIES.

Hood College DEPARTMENT OF GLOBAL LANGUAGES AND CULTURES

hood.edu/global

Have you ever wondered what it feels like to see the world through someone else's eyes? By taking global languages and cultures courses, you will be able to experience just that. Our programs are interdisciplinary and involve languages, cultural proficiency, humanities and the social sciences.

You will be introduced to every aspect of global cultures, from the sciences to the arts. We offer numerous opportunities to study abroad and complete internships that foster an appreciation for diverse cultures and an understanding of the global issues that confront the world today.

BEYOND THE CLASSROOM

You will be able to study abroad through one of Hood's affiliated programs in Seville, Spain; Munich and Mainz, Germany; Egypt, Morocco or Jordan; Toulouse and Paris, France; Argentina; Mexico and more. The possibilities are endless.

The Department of Global Languages and Cultures inspired me to choose my own path, one that I love and excel in. I built wonderful relationships that have been an integral part of my Hood experience. My professors supported me through my graduate program, inspired my love for French and Spanish, and are the main reason I've begun learning my next language: Russian. I never thought I would become trilingual, but thanks to this department, I now look forward to becoming a true polyglot.

French Major

You will participate in field trips and meet guest speakers brought to campus through the endowed Charlotte Moran Lecture Series. You may also travel and conduct research with a faculty member thanks to a competitive college grant program.

The department also employs teaching assistants from France, Germany and Spain, who will work closely with you to expand your language fluency.

4PLUS

Hood's 4PLUS program combines undergraduate and graduate studies to save you time and money. By working with your adviser, you can start taking courses toward your master's in your junior or senior year and earn dual-course credit for both your bachelor's and master's degree.

Any major can work toward a master's in business administration, computer science, cybersecurity, health informatics or information technology.
