Enjoy better oral health with FlexAppeal enhanced

When you have healthy teeth and gums, you look and feel better. Healthy teeth and gums may also positively affect your overall health.

FlexAppeal Enhanced is part of your UnitedHealthcare dental plan. FlexAppeal Enhanced helps your teeth and gums stay healthy. This program has three benefits:

- Additional cleanings or gum treatments for those who have been treated for a periodontal (gum) condition. Your dentist will advise on the need for this.
- White fillings for back teeth
- Dental implants

Receive extra cleanings and gum treatments.

Gum disease affects many people in the U.S. Regular cleanings and gum treatments can help slow or reverse this disease. If your dentist says you have gum disease and need treatments, you can get four teeth cleanings or gum treatments each year, or a combination of the two.

You should know:

- This benefit provides additional cleanings and treatments for those with periodontal (gum) disease.
- You can choose white fillings for back teeth.
- Implants are covered.

Choose white fillings for a natural look.

Some plans only provide coverage for silver fillings, and if you want white fillings, you must pay the difference. FlexAppeal Enhanced provides coverage for white fillings for back teeth, so your out-of-pocket costs are generally less than with a more traditional plan.

Missing teeth? Dental implants are an excellent choice.

Dental implants are replacement teeth. They look and feel the same as your natural teeth. Implants are placed in your jaw bone, so they feel sturdy and secure. They look natural and can help improve your smile and your confidence. Dental implants are covered if you need to replace teeth due to injury or disease.

Questions? We're here to help.

FlexAppeal Enhanced encourages better oral health. With better oral health, you may have better health overall.
