

Windows 8: Connecting to the unsecure@hood wireless network at Hood College

Please ensure your computer meets the following
criteria in order to successfully make a connection to
this network:

- 802.11b/g/n capable Network Adapter
- Latest manufacturer drivers for the Network Adapter

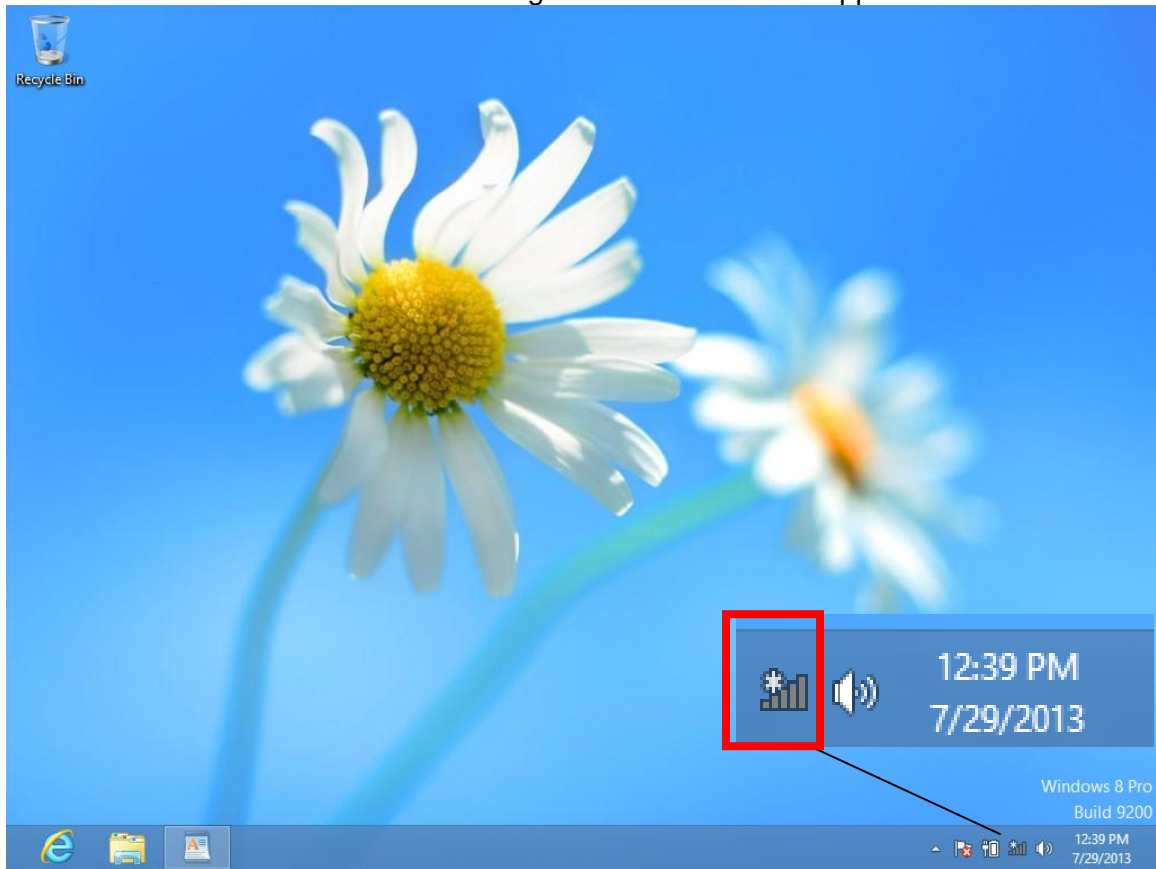

Step 1:

Click on the **Desktop** tile on the Start screen.

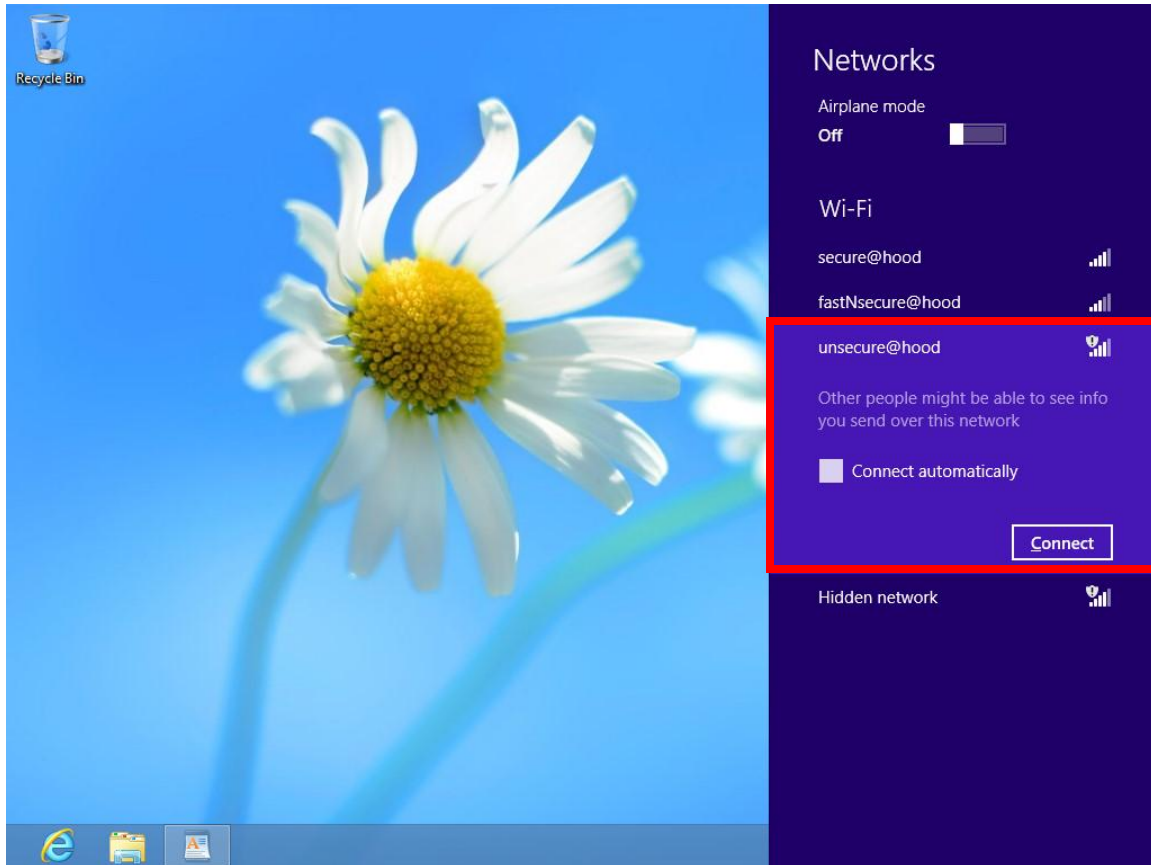

Step 2:

Click on the **Network** icon in the lower right hand corner of the application bar.

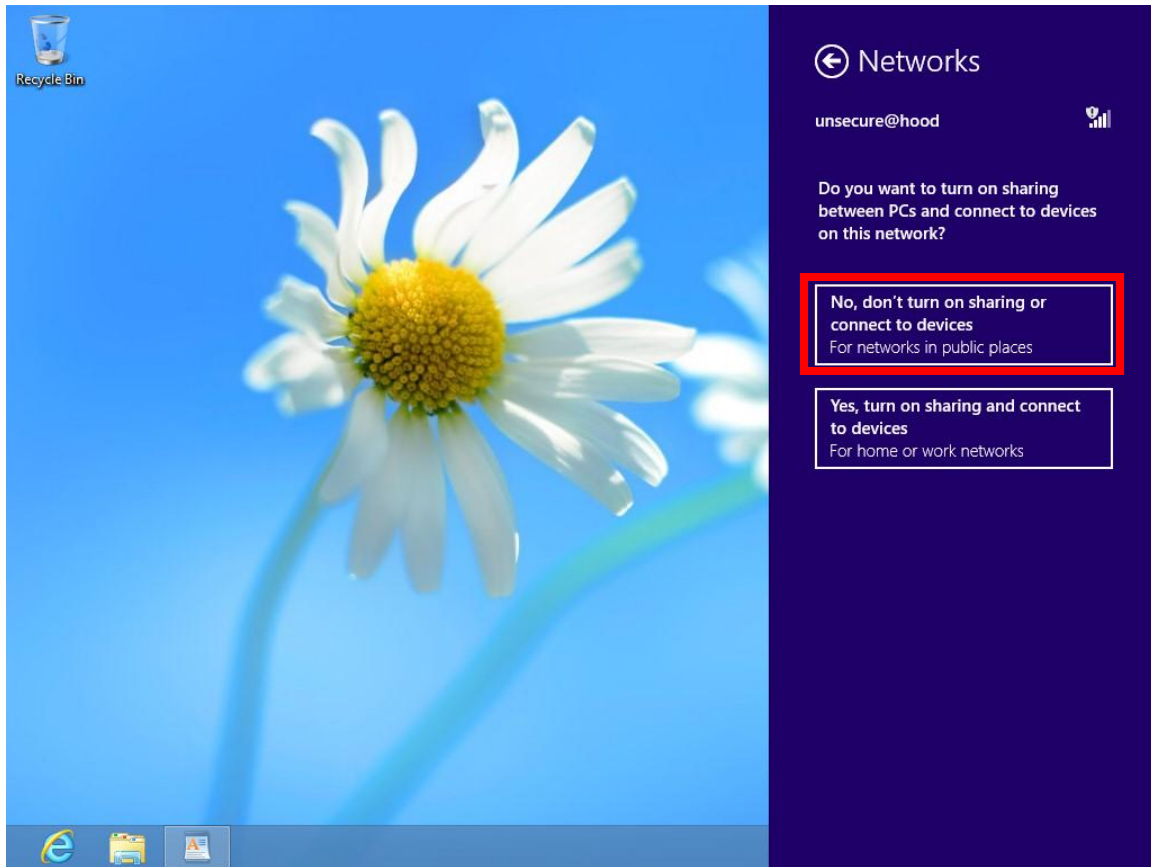

Step 3:

Select the **unsecure@hood** WIFI network and then click the **Connect** button.

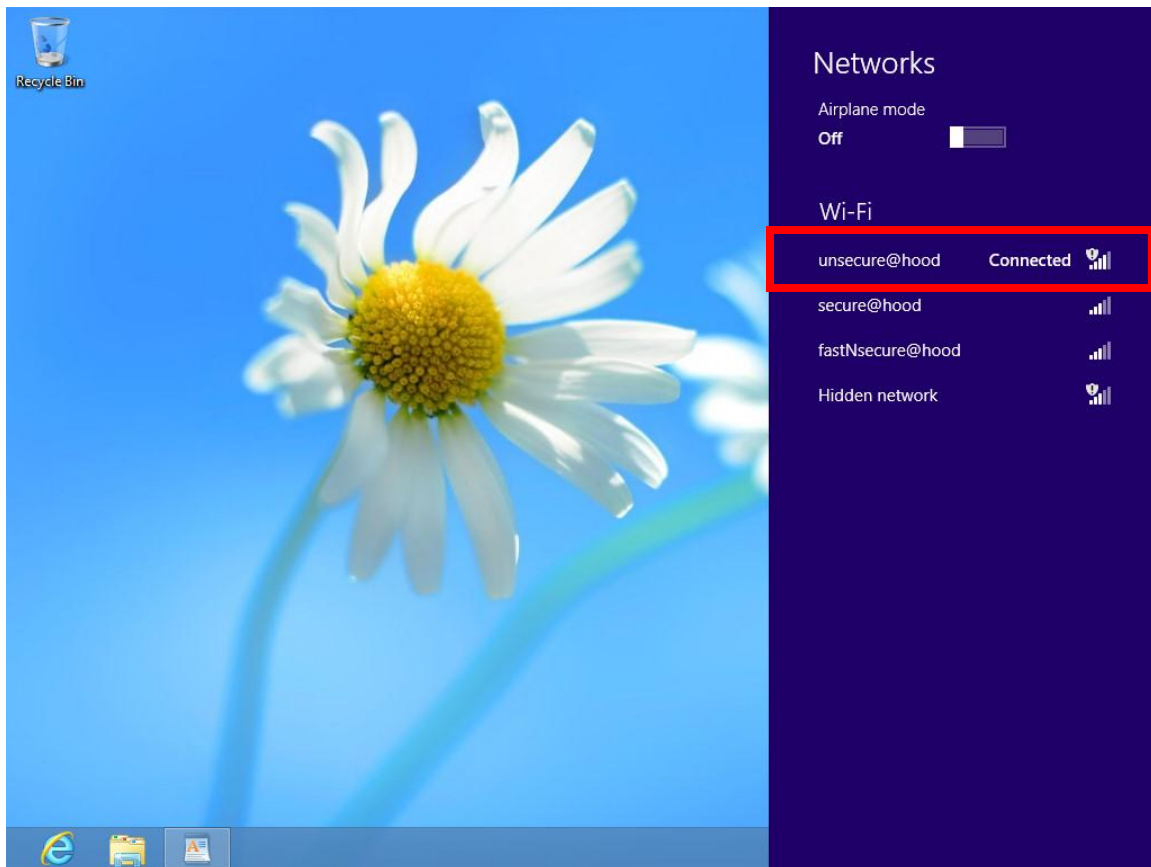

Step 4:

Select the **No, don't turn on sharing or connect to devices** button.

Step 5:

The **unsecure@hood** WIFI will display as **Connected** under the Networks setting area. You are now connected to the **unsecure@hood** WIFI network.

Step 8:

Open any web browser, which should automatically redirect you to the **Hood authentication** page. On the login page, enter your username. (prefix your username with **pergola**) Enter your password and Click **Log in**.
